

LAY 'EM DOWN

**You've got this strange disposition / Like you think you're all alone
Don't wanna stand here and argue / But you could not be more wrong
I won't pretend that it's easy / To just "let go & let God"
But that is just what He's asking / While we walk this earthly sod**

**I've got to say this, yo, don't think God don't know
Exactly what you're going through
He sees your rise and your fall. He sees it all
And He knows precisely what to do**

**So, come on, come on, lay your cares on Him
Come on, come on He'll take them from you
Come on, come on, lay your cares on Him
Come on, come on, lay them down**

**I don't quite get you're fronting / Acting like everything's fine
You say you've got no time to discuss it / Perhaps it's time to make time
You're Heavenly Father is waiting / To help you work this all through
Quiet your heart, now and listen / You'll find He's talking to you**

**And if you think your fate is to carry that weight
Completely by yourself, chile' you're tripping
Because we're family, you know, and share the weight of each yolk
I see your point. But that's a dead horse you're whipping**

CHORUS

BRIDGE

**Humble yourselves, therefore, under God's mighty hand,
that He may lift you up in due time.
Cast all your anxiety on Him
Because He cares for you.**
